

Mr. Justin Burns
Director of Chapter Development
Phi Gamma Delta Fraternity

December 17, 2009

Dear Justin and the Phi Gamma Delta Chartering Committee,

This letter is to serve as official notice that the Phi Gamma Delta colony at The College of Charleston is in good standing with The Office of Greek Life and Administration. The colony has the full support of the Greek community and administration to officially charter and become a recognized fraternity in the Spring 2010 semester.

It is my pleasure to let you know that it has been a wonderful experience working with the men of the Phi Gamma Delta colony. Their executive board's leadership along with their on campus advisor, Michael Duncan have been exceptional to work with. They have made a smooth transition into the Greek community and have become, in less than a year, a great asset to our campus.

I understand that sometimes it may be a challenge in working with new groups, but the men of the colony, have done their best to set the standard and raise the bar for all of our Greek organizations at CofC.

Phi Gamma Delta should be proud to call these men members and brothers. Thank you for your time and commitment to continuing to engage and challenge our students to be better for themselves and the world around them.

Please contact me at (843) 953-6320 or via email at kissingerk@cofc.edu for any further questions or concerns about the organization.

Interfraternally,

Kassie L. Kissinger

Kassie L. Kissinger
Director of Greek Life
College of Charleston
